

Features

The HEPA is a recessed luminaire with top access to the LED gear tray. The lens is held in place by an internal flange. Designed to be installed into a pressurised room. Designed to be mounted in a Rudnev/poly panel ceiling. Full wash down capability. The Hepa has “walk-on” ability and can withstand up to 160kg on the Top of fitting. Retro fit LED kit is also available for older Metal Halide installations. UPS Emergency lighting systems are also available.

Suitable for Hygiene areas using polypanel construction such as freezing works, dairy factory, bakeries and general food handling or refrigerated storage areas.

Hepa is top accessed allowing servicing to be carried out remotely. Triumph Lens, Y5 and Clear Lens available.

Applications

Hygiene Areas specifically Dairy, Meat & Food Preparation areas

Lifetime

L70 50000hrs B10

5 yr warranty

Benefits:

- Top access for maintenance without entering the cleanroom
- Easy retrofit solution for upgrading from MH to LED
- Zhaga Footprint LED engine
- Remote control gear
