

# RX REDIPAK LED

Energy Savings in an instant.

The Redipak LED brings unparalleled energy economics to commercial applications. With a range of options to replace your existing recessed modules any job can be taken care of.

Featuring control gear and led boards from Tridonic you get the assurance that they will perform for years to come.

Locked in diffuser means you meet seismic codes but with the flexibility to change to other diffusers if required. Seismic restraint tabs are included as part of the design, as are fixing tabs where wire restraint is required.

These are a simple swap out and the quickest way to get your energy savings going, by putting these on an operating lease you will save money from the first payment without impacting on the quality of your work environment.

## APPLICATIONS

Office Lighting  
School Lighting  
Commercial

## SPECIFICATIONS

 Electronic ballast

 IP20

 LED

 Recessed direct

 230-240V 50 Hz
