

RX S LINE

A new standard in office lighting has arrived.

The S Line fitting is a high performance LED module utilising top quality control gear, with Dali protocols as standard. Dali does not need to be utilised but is there for further energy efficiency and can easily be controlled by a daylight or presence detector. With a dropped down diffuser, and light illuminating the underside of the fitting, the ceilings will never look dull again. Give your office or boardroom something more than standard, without breaking budgets.

APPLICATIONS

Office Lighting
Shop Lighting
Commercial

SPECIFICATIONS

 Electronic ballast

 IP20

 LED

 Recessed direct

 230-240V 50 Hz
