

Features

The RX W Line Wall Washer has an asymmetric light distribution suitable for shops and to illuminate artwork on walls. The W Line's asymmetric light distribution is 100% indirect and is produced by the LED strip shining into the specially designed reflector, thus the fitting is lower in glare than most direct fittings.

Benefits:

- The W line will put the light where its needed on the product in an even distribution down a wall.

Applications

Shop, Commercial

Lifetime

30,000hr

2 yr warranty
