

Meteor LED Batten

Features

The Meteor doesn't compromise design or energy savings. Available in both standard and DALI models and both stocked here to get your energy savings project underway. These fittings have a big output that allows you to stop using fluorescent and enjoy a long product lifetime with low running costs. Utilising LG led chips and Osram electronic drivers there is no compromise on the quality these offer. Suitable for use in commercial environments including schools and offices.

Key Features

- Low profile design
- LG LED for reliability
- DALI available

Applications

Commercial, Shop Lighting, Residential

Lifetime

50,000 Hours L70 B50
